PREFACE.

THE years of laborious preparation devoted to the completion of this complete Catalogue will have been well expended if the work fills the place designed for it by its projectors. That place is to be for the art-buyer what the Book Publishers' List is for the book-buyer. Prior to the publication of this volume the art-buyer could find photographic reproductions of paintings and sculpture only by laboriously poring over catalogues in foreign languages, and only by a familiarity with French, German, Spanish, and Italian could he even enter his pursuit of a given subject with any hope of success. With this volume he will be able to turn at once to a given artist and find his subject with ease.

The catalogue should further commend itself to the picture-buyer by the simplicity of its arrangement, and at the same time by the character and comprehensiveness of the information imparted by both text and illustrations.

Modern painters, as the term is here used, means contemporaneous artists.

Among the old masters are very many subjects marked "drawing." It should be noted that these are for the most part reproductions of rough sketches, and they must not be confused with the finished pictures of the same or similar titles.

We are prepared to supply all the subjects given in this catalogue. In each case our aim is to furnish the best print of a given subject irrespective of its publisher.

The dimensions of pictures, where such are given, are only approximate, and in no case are to be taken for use in framing.

KEY TO CATALOGUE.

There is no uniformity regarding size among various photographic publishers, and one of the most difficult things in arranging the present catalogue has been to devise some method of classifying sizes.

The following key explains the plan followed:

The style or process of reproduction of each subject herein named is indicated by the letter or letters opposite the subject in the size column.

A Gelatine Print.
B Albumen, or Silver Print.
C Carbon.
D Photogravure.
Pl Platinum.

In some instances the subject comes in several processes of reproduction. Where this occurs it is indicated by having the letters of each process in the size column.

SIZES.

The sizes given below are only approximate, and should not be used for framing measurements. The subjects vary in width according to the width of the original painting.

Size 2. The actual print is from 20x30 inches to 25x34 inches; the mount varies from 31½x43 to 38x48. Prices $10, $12 and $15, with the exception of (A) Gelatine Prints, which are $5.

Size 2½. The actual print is about 20x27 inches; the mount is 28½x39½ inches. Price $10.

Size 3. The actual print is from 12x17 inches to 16x20 inches; the mount is from 22x28 to 28x36. Price $4, with the exception of (A) Gelatine Prints, which are $1.

Size 3½. The actual print is about 13x16 inches; the mount is from 18x22 to 22x28. Price $3.

Size 4. The actual print is from 8x10 inches to 9x12 inches; the mount is 15x20. Price $2, with the exception of (A) Gelatine Prints, which are 75 cents.

Size 4½. The actual print is from 7x9 inches to 8x10 inches; the mount is 11x14 to 15x20. Price, Platinum $1; Carbon $1.50.
